PROFESSIONAL SUMMARY

Data Analyst with hands-on project experience in SQL, Python, Excel, Power BI, and Tableau, specializing in data cleaning, data modeling, statistical analysis, and exploratory data analysis (EDA). Recognized for strong analytical thinking, effective communication, and a proactive learning approach. Skilled in building interactive dashboards and reports that turn raw datasets into actionable business insights, supporting data-driven decision-making and continuous improvement in collaborative team environments.

TECHNICAL SKILLS

Programming: Python, Pandas, NumPy

Database: SQL(MySQL), Joins, Subqueries, Window Functions

BI & Visualization: Power BI, Tableau, Matplotlib, Seaborn

Analytics: EDA, Data Modeling, Statistical Analysis, DAX, Power Query, Excel (Pivot Tables), KPI Reporting

Tools & Platforms: Jupyter Notebook, Git & GitHub, Word, PowerPoint, Claude

PROJECTS

Bank Loan Approval & Risk Analysis | *Python, SQL, Power BI* **Github**

- Developed an end-to-end loan approval analysis to understand which applicant factors drive approval decisions and default risk.
- Cleaned and transformed applicant data using Python (Pandas, NumPy) and executed analytical SQL queries to identify key patterns across demographics, credit history, income and property area.
- Designed and built an interactive Power BI dashboard to track approval KPIs, enabling quick comparison of applicant segments.
- Derived actionable insights to optimize lending workflows, mitigate default risk, and support data-driven approval decisions and process improvements.

HR Attrition & Analytics Dashboard | *Python, Power BI, SQL* **Github**

- Developed an HR analytics solution to identify the main drivers of employee attrition and support workforce retention decisions.
- Analyzed employee records using Python (Pandas, NumPy, Seaborn), EDA and SQL to uncover patterns across roles, pay, overtime and tenure.
- Built a 4-page interactive Power BI dashboard using DAX measures and slicers to monitor attrition across roles, pay and tenure.
- Identified that overtime employees leave 3x more often (30.5% vs 10.4%) and recommended overtime limits, better onboarding and entry-level pay reviews to improve retention.

EDUCATION

Sant Gadge Baba Amravati University **2022 – 2026**
B.E. in Information Technology CGPA – ***7.07*** *Chikhli, Buldhana*

Nutan Junior college of Art and Science **2020 – 2021**
HSC Percentage – ***86.00%*** *Kingaon Raja, Buldhana*

CERTIFICATES

Tata Group Data Analytics Job Simulation – Forage Certificate

Deloitte Australia Data Analytics Job Simulation – Forage Certificate
